

COOKIES POLICY

What are cookies?

A cookie is a file that is downloaded to your computer when accessing certain websites. Cookies allow a web page, among other things, to store and retrieve information about a user's or team's browsing habits and, Depending on the information they contain and the way they use their equipment, they can be used to recognize the anonymous user. Cookies are only associated with an anonymous user and their computer and do not provide references that allow to deduce personal data of the User. In the case of Registered Users that register or have logged in, they may benefit from more personalized services oriented to their profile, thanks to the combination of the data stored in the cookies with the personal data used at the time of registration. These Users expressly authorize the use of this information for the stated purpose, without prejudice to their right to refuse or disable the use of cookies.

Typology, purpose and operation of Cookies in General.

1. Types of cookies according to the period of time they remain activated.

Depending on the length of time that they remain activated in the terminal equipment, we can distinguish: **Session cookies**: They are a type of cookies designed to collect and store data while the user accesses a web page. They are usually used to store information that only interests to keep for the provision of the service requested by the user on a single occasion (eg a list of products

purchased). Persistent cookies: They are a type of cookies in which the data they are stored in the terminal and can be accessed and treated for a period defined by the person in charge of the cookie, and that can go from a few minutes to several years.

2. Types of cookies according to the entity that manages them.

Depending on the entity that manages the equipment or domain from which they are sent cookies and treat the data obtained, we can distinguish: **Own cookies**: Son those that are sent to the user's terminal equipment from a computer or managed domain by the editor himself and from which the service requested by the user is provided.

Third party cookies: These are those that are sent to the user's terminal equipment from a computer or domain that is not managed by the publisher, but by another entity that treats the data obtained through cookies.

3. Types of cookies according to their purpose

According to the purpose for which the data obtained through cookies are processed, We can distinguish between:

- **Technical cookies**: These are those that allow the user to navigate through a website, platform or application and the use of different options or services that there are such as, for example, controlling traffic and data communication, identify the session, access restricted access parts, remember the elements that integrate an order, perform the purchase process of an order, make the request for registration or participation in an event, use security elements during the navigation, store content for

the dissemination of videos or sound or share Content through social networks.

- **Personalization cookies:** are those that allow the user to access the service with some general characteristics predefined according to a series of criteria in the user's terminal such as for example the language, the browser type through which you access the service, the regional configuration from where you access the service, etc.
- **Analysis cookies:** They are those that allow the person responsible for them, the monitoring and analysis of the behavior of the users of the websites to which they are linked The information collected through this type of cookies is used in the measurement of the activity of the websites, application or platform and for the preparation of navigation profiles of the users of said sites, applications and platforms, with the In order to introduce improvements based on the analysis of user usage data from service.
- **Advertising cookies:** They are those that allow management, in the most effective way possible, of the advertising spaces that, if any, the editor has included in a page web, application or platform from which provides the requested service based on criteria as the edited content or the frequency in which the ads are displayed.
- **Behavioral advertising cookies:** Are those that allow the management of the as effectively as possible, of the advertising spaces that, where appropriate, the publisher has included in a web page, application or platform from which provides the service requested. These cookies store information on the behavior of users obtained through the continued

observation of their browsing habits, which allows to develop a specific profile to show advertising based on it.
